Professional Summary

Motivated MERN Stack Developer and Computer Science student at Adama Science and Technology University, passionate about building scalable, responsive, and modern web applications. Open to internships and collaborative projects. Strong focus on clean code, UI/UX design, and full-stack development using JavaScript ecosystem.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, Mongoose

Tools: Git, GitHub, VS Code, Postman, Netlify, Vercel

Other: JWT Authentication, Responsive Design, API Integration, Problem Solving

Experience

MERN Stack Developer (Self-Driven / Freelance Projects) 2024 – Present

- Developed full-stack web applications using MERN stack
- Built RESTful APIs with authentication and secure routing
- Created responsive UI interfaces using React and Bootstrap
- Deployed applications on cloud platforms (Vercel / Netlify)

Projects

1. Portfolio Website

- Personal developer portfolio showcasing projects and skills
- Built using React with modern UI design
- Integrated contact form and responsive layout

2. Task Management System (MERN Stack)

- Full-stack CRUD application for task tracking
- User authentication using JWT
- MongoDB database integration with Express API

3. E-Commerce Web App (Prototype)

- Backend API built with Node.js and Express
- Responsive frontend with React

Education

Adama Science and Technology University

Bachelor of Science in Computer Science (Candidate)

2023 – Present

Career Objective

Seeking internship or project-based opportunities in full-stack development to apply and enhance MERN stack skills while contributing to real-world software solutions.

“Building modern, scalable web applications with clean and efficient code.”
